

Principles of Macroeconomics

ECON 2030-D01 Fall 2025

Online Asynchronous

Instructor:	Sirazum Munira Haque	Office:	128 Miller Hall
Email:	szh0152@auburn.edu	Virtual Office Hours:	By appointment
Course Site:	canvas.auburn.edu		

Course Delivery and Canvas

Canvas will be the central hub for this asynchronous course. Course announcements, weekly modules, assignments, review materials, and exam information will be posted there. Make sure to

- Check Canvas and Auburn email regularly
- Enable Canvas notifications.

Course Description

Principles of Macroeconomics is an introductory undergraduate course that explores the economy as a whole, including national income, unemployment, inflation, economic growth, and economic fluctuations. Rather than focusing on individual markets, this course examines the broader economy and the ways in which government policies and economic institutions affect aggregate outcomes.

The course emphasizes economic intuition and real-world applications. Through examples, data, and policy discussions, students will learn to connect macroeconomic concepts to current events and national economic challenges.

Course Outcomes

By the end of the course, you will be able to:

- Understand the basic concepts, framework, and logic of modern macroeconomics.
- Use economic principles to interpret national economic issues and government policy decisions.
- Think critically about economic news and long-run policy goals such as stable prices, economic growth, and full employment.
- Apply macroeconomic concepts to real-world examples and policy questions.
- Build a solid foundation for further study in economics, public policy, or related fields.

Course Organization

- This course is organized into weekly modules in Canvas. Each module contains materials for that week's topic, including chapter notes, lecture slides, interactive Canvas pages with embedded videos, practice problems, and assignments.
- Practice problems are designed so that you can attempt a question before expanding the answer or solution. This allows you to check your understanding while working through the material at your own pace.
- Before each midterm, I will post a recorded review lecture through Panopto together with review or practice materials. These review sessions are designed to reinforce major concepts, work through representative problems, and help you prepare for the exam.
- Because the course is asynchronous, there is no required weekly class meeting. [However, asynchronous does not mean self-paced: you are expected to work through each week's module on schedule and complete all assignments and exams by the posted deadlines.](#)

Technology Requirements

To participate successfully in this online course, you will need:

- Reliable internet access and regular access to Canvas.
- A computer with a webcam capable of running **ProctorU**, which is required for online exams.
- Access to Panopto through Canvas for recorded review lectures and other course videos.

A short practice quiz will be made available before the first online exam so that you can test the required exam software and address technical problems in advance.

Recommended Textbook

- Mankiw, N. Gregory. *Principles of Macroeconomics*, 9th Edition. Recent earlier editions are also acceptable.
- Course notes, slides, interactive pages, and practice materials posted in Canvas will supplement the textbook.

Tentative Course Outline

1. *Economics Basics*

Chapter 1 $\Rightarrow$ Ten Principles of Economics (concepts only)

Chapter 4 $\Rightarrow$ The Market Forces of Supply and Demand (review)

2. *The Data of Macroeconomics*

Chapter 10 $\Rightarrow$ Measuring a Nation's Income

Chapter 11 $\Rightarrow$ Measuring the Cost of Living

3. *The Real Economy in the Long Run*

Chapter 12 $\Rightarrow$ Production and Growth

Chapter 15 $\Rightarrow$ Unemployment

Midterm Exam 1

4. *Investment, Money, and Prices in the Long Run*

Chapter 13 $\Rightarrow$ Saving, Investment, and the Financial System

Chapter 16 $\Rightarrow$ The Monetary System

Chapter 17 $\Rightarrow$ Money Growth and Inflation

Midterm Exam 2

5. *Short-Run Economic Fluctuations*

Chapter 20 $\Rightarrow$ Aggregate Demand (AD) and Aggregate Supply (AS)

Chapter 21 $\Rightarrow$ The Influence of Monetary and Fiscal Policy on AD

Midterm Exam 3

Final Exam

Note: This is a tentative plan and is subject to change. Any changes will be communicated through Canvas and Auburn email.

Examinations

- There are three midterm exams; the best two midterm scores count toward the final grade.
- There is one comprehensive final exam.
- Exams are administered online through Canvas using ProctorU.
- Exams are closed-book and closed-notes except for one 3" × 5" notecard (front and back), unless otherwise announced.
- Midterms are primarily multiple choice and may also include short-answer questions.
- Each midterm is available during a posted exam window. Once you begin an exam, you will have 75 minutes to complete it.
- An on-screen calculator will be available when needed. Cell-phone calculators are not permitted during exams.
- Students with approved testing accommodations will receive the appropriate extended time or other approved accommodations.
- Use of unauthorized resources, including generative AI tools, during an exam is prohibited and will be handled under Auburn University's Academic Honesty Code.

Tentative Exam Dates:

- Midterm 1: September 25
- Midterm 2: October 30
- Midterm 3: December 3
- Final Exam Period: December 8–12; exact date and online availability window will be announced in Canvas. The final exam time limit is 2 hours.

Exact opening and closing times for online exams will be announced in Canvas in advance.

Make-Up Exams

- If you are unable to complete a midterm during the designated exam window because of a legitimate and documented circumstance, contact me as soon as possible.
- Documentation supporting the absence should normally be submitted within two business days of the missed exam window.
- Approved make-up examinations must ordinarily be completed within one week of the original exam.
- There is no make-up option for the final exam except as permitted under University policy.

Assignments

- There are 6 assignments administered through Canvas.
- Each assignment allows two attempts before the due date. This does not apply to exams.
- Assignment deadlines are listed in Canvas and in the relevant weekly module.
- Late submissions are not ordinarily accepted unless an exception is approved for documented circumstances.

Grading & Evaluation

Achievement in this course will be assessed through completion of the following activities:

Item	Counted	Weight	Total
Assignments	6	5% each	30%
Midterms (Best 2 of 3)	2	20% each	40%
Final Exam	1	30%	30%

The final grade will be determined by the following scale after rounding the total course percentage to the nearest whole percentage point:

Grade Scale: A (90+), B (80–89), C (70–79), D (60–69), F (below 60)

Academic Support

Information about Auburn University’s academic support services is available at academic-support.auburn.edu.

Academic Dishonesty & Cheating

All portions of the Auburn University Student Academic Honesty Code (Title XII), available in the Student Policy eHandbook at https://www.auburn.edu/student_info/student_policies/, apply to this course.

All academic honesty violations or alleged violations will be handled according to Auburn University procedures. Unless explicitly authorized for a particular assignment, the use of unauthorized resources during examinations, including generative AI tools, is prohibited.

Disability Accommodations

Students who need disability-related accommodations should work with Auburn University's Office of Accessibility. Information is available at <https://accessibility.auburn.edu/students/>.

Once accommodations are approved, please notify me as early as possible so that the necessary arrangements can be made for assignments and examinations. For exam accommodations, advance notice is especially helpful.

Course Communication

Canvas is the primary course hub. I will use Canvas announcements and Auburn email to communicate deadlines, changes, reminders, and exam information. You are responsible for checking both regularly.

Please use your Auburn email account when contacting me about the course. I typically respond to email within 1–2 days. If you have a question or are falling behind, please reach out early so that we can address the issue before a deadline or exam.

Virtual Office Hours

Virtual office hours are available by appointment through Zoom. Email me through your Auburn account to schedule a meeting. The Zoom link is available through Canvas.

Course Expectations

1. **Work through the weekly modules on schedule.** We will typically cover 1–2 chapters per week. Complete the assigned readings, lecture materials, interactive pages, practice problems, and assignments by the posted deadlines.
2. **Practice before checking solutions.** When practice questions include expandable answers, first attempt the question on your own and then use the solution to check your reasoning.
3. **Use the review materials.** Before each midterm, watch the recorded review lecture and work through the posted review or practice materials.
4. **Check Canvas and Auburn email regularly.** Weekly announcements, reminders, exam windows, and any schedule changes will be posted there.
5. **Ask questions early.** I am happy to help over email or during virtual office hours. If you find yourself falling behind, do not wait until an exam or assignment deadline to reach out.
